As a recent IT graduate with a strong academic foundation and an intense interest in technology, possess command of different programming languages, sharpened via real projects and studies. Have very good interpersonal skills and excel in teamwork, commitment to lifelong learning as well as adjusting to new technologies. Willing to work for the growth of the information technology team, improve further on technical abilities, and be an effective contributor for success.

EDUCATION

Bachlelor of Science (BSc) in Information Technology
- MU | CGPA: 8.7 | Percentage:82.65%| 2020 - 2023

HSC
- G.V. Khade Vidyalya | Percentage: 57.07% | 2012 - 2014

SSC
- G.V. Khade Vidyalya| MSBSHSE | Percentage: 72.73% | 2012

TECHNICAL SKILLS

Language: C# (.NET), Java (Spring Boot), C++, Node.js (JavaScript), HTML, CSS

Server-Side: Spring Boot), ASP.Net, Selenium Java, JSP, Servlet, JDBC, Hibernate , REST API, MySQL, SQL, MongoDB

Tools: Eclipse, Visual Studio 2022, AWS, GitHub, Docker, Visual Studio Code(VS Code), Postman, Swagger, JIRA, MySQL Workbench

Frameworks: React(Library), Spring Boot, Spring, ASP.Net

Front-End: React, CSS, HTML, Bootstrap, JQuery, JSON

PROJECTS

1. **Pharma Quick:**

Technologies: AWS, GitHub, C#(.NET), .NET Core(C#), axios, REST, MySQL, HTML, JavaScript, React.js, Toastify, Bootstrap, Tailwind CSS, Context API(React), React Router, Swagger,.

The Pharma Quick web application provides a convenient and secure way to order medications and healthcare products online. Users can easily browse, purchase prescriptions, and access over-the-counter drugs from certified pharmacies. With features like secure transactions, fast delivery, and 24/7 support, the app aims to make healthcare more accessible and efficient from the comfort of your home.

2. **AI Based Email Scraper and Bulk Email Sender:**

Technologies: Python TensorFlow BeautifulSoup, Selenium Node.js, SMTP, SendGrid MySQL, React.js Flask, Express.js AWS, Google Cloud, Excel

Developed an AI-powered Email Scraper and Bulk Email Sender, streamlining data extraction and email marketing. The scraper intelligently collects email addresses, ensuring accuracy and compliance, while the bulk sender delivers personalized campaigns. Automation features enable scheduled sending, boosting efficiency and engagement. Scalable design supports larger email lists, driving improved ROI and campaign success.

SOFT SKILLS

Good Communication Skills | Adaptability and Quick Learning | Attention to Detail | Time Management
